

BAITA PRÀ SOLÌO  
SAN VITO DI CADORE

*La tradizione non è semplicemente un  
patrimonio ereditato,  
ma qualcosa che deve continuare ad esistere  
nella nostra coscienza*

We want to tell the love for our land, for people and traditions.

We try to work as much as possible with products from our territory, seeking excellence and sustainability in the way they are processed.

We like to define our suppliers as collaborators, as they contribute with their work to carry forward our ideas and our values.

We cultivate our own vegetable garden, from which we obtain potatoes, which we use for most of the year for gnocchi and some vegetables that accompany us mainly during the summer.

This is why we define ourselves as guardians of tradition, seekers of authentic flavors and defenders of craftsmanship.

We hope that here, surrounded by nature, you can give refreshment to body and soul.
